2018 NEW VARIETIES

On the front cover...magnificent flower spikes of Lupinus ‘Westcountry Gladiator’. Must Have Perennials.
HELLO!
Welcome to the 2017-2018 Gulley Greenhouse Young Plant Catalog

At Gulley Greenhouse we specialize in custom growing plugs and liners of perennials, herbs, ornamental grasses, and specialty annuals.

Our passion is to provide finished growers with a wide selection of high quality young plants to choose from. Having been established as a family business for over 40 years, we’re proud to consider ourselves connected to the industry. We do our best to stay at the forefront of the new technology and variety advancements that are being made every year (and every day!)

THANK YOU
Thanks to all of our customers for your continued support! We sincerely appreciate your orders and the confidence you’ve shown in our products and company. As always, we strive to produce quality plants perfectly suited for easy production and successful sales to the end consumer.

We’re looking forward to another great season, with lots of new varieties to offer and the same quality you’ve come to expect.

PLEASE SEE GENERAL INFORMATION ON PAGE 2.

CONTENTS

(By Botanical name, including sizes, descriptions, & lead times)

ORNAMENTAL GRASSES
Grasses Introduction.................... 68
Ornamental Grass Varieties.............. 69
(By Botanical name, including sizes, descriptions, prices & lead times)

HERBS
Herb Introduction......................... 71
Herb Varieties.......................... 72
(By Common name, including sizes, descriptions, prices & lead times)

LEGEND
Camera icon denotes that an image is displayed of the selected variety

HEIGHT / WIDTH
Indicates the height or width of the mature plant.

BLOOM SEASON
The time of year to expect blooming: SP: Spring, SU: Summer, F: Fall, É: Early (EF = Early Fall)

LIGHT
O = Full Sun
● = Part Shade
● = Full Shade

ZONE
Indicates the general USDA hardiness zone.

TRAY SIZE / LEAD TIME
Will generally be noted as: • 96 (8 weeks)

For pricing and to place an order, please contact us or your favorite horticultural broker. See page 4 for our complete broker listing.
GENERAL INFORMATION

WHERE IS GULLEY GREENHOUSE?
Our greenhouse is located in Fort Collins, Colorado which is about 60 miles (1 hour) north of Denver. Denver International Airport is the closest major airport to our facility. Please see aerial photo overview on page 5.

PRICES:
Our young plants are sold exclusively through our horticultural broker network, so please contact the broker of your choice for current pricing. Our complete broker listing can be found on page 4.

Many varieties are patent protected and have associated patent fees, royalties, and required tags. Your broker can also provide this information.

DISCOUNTS:
• 2% Early Order Discount: All orders placed between June 1, 2017 and Friday October 13, 2017 will receive an Early Order Discount of 2%. The EOD will be applied in addition to any applicable volume discount. Orders placed from availability are not eligible for the EOD.

• Volume Discount:
  Volume discounts are available on a per-order basis. Orders can span multiple ship weeks but must be placed at the same time.
  • Perennial Volume Discount: Applies to all sizes of Perennials, Herbs, and Grasses
    50+ trays: 3% discount
    100+ trays: 5% discount
    150+ trays: 7% discount.
  • Specialty annuals are not eligible for volume discounts.
  • We are happy to offer a custom quote on orders larger than 250 trays.

ORDERS / LEAD TIMES:
To ship your order complete, we need it at least 1 week prior to the longest lead time for each variety (listed by each plant in the catalog).

• Except when ordering off availability, all orders are custom grown to the lead time listed in the catalog. Any cancellations or changes to custom grown orders will not be accepted after plants have been sown or stuck, according to their specific lead time.

• Plants noted as ‘availability only’ are in short supply or have a very long lead time, so we may not be able to guarantee a specific ship date. But, we’ll put you on the list and call when plants are available!

MINIMUMS:
• Our minimum for 196, 96, 50, and 72 tray sizes is one standard 4-tray box (22"x12.5"x18"). Tray sizes can be combined to fill a box. Pull & Pack may be available for larger Cordyline orders, please call for options.

• The 32-cell minimum is 1 box, most often packed 3 trays to a box with dimensions of 22"x12.5"x18". Please see page 12 for more information on our 32-cell program.

TAGS:
• Picture tags are available to ship with all varieties but most will not automatically ship; please ask your broker for specific tag pricing.

• Several patent protected varieties require a tag to be purchased with the plants; your broker will have prices and a list of these varieties as well.

• There are many companies that have removed the requirement for tags to be shipped with plants this season. All varieties licensed by Must Have Perennials, Darwin Perennials, Dummen Orange, Plant Select and TerraNova still require tags, but tags are no longer mandatory to ship with plants. Growers are now able to provide their own tags in accordance with the licensor’s guidelines and with licensor's approval. Please keep this in mind when ordering tags that they will no longer automatically be added to orders for these varieties.

• Don’t forget to order tags...tag orders not accompanying the liners will be assessed a $10.00 handling charge.

SHIPPING:
Please tell us how you want your plants to be shipped! You are the best judge of shipping methods to your area, so please inform your broker. All shipping is FOB Gulley Greenhouse, Fort Collins CO.

• Boxes, inserts, packing, racking, handling, transportation to airports, and transfer fees will be included into one simple flat fee per tray, regardless of size or how many trays are on the order.

• Shipments can be scheduled via air, FedEx, FedEx Freight, and UPS (at customer risk and request). Please let us know if you would like to ship on your company's account.

• Large orders may be palletized if applicable; we want to get you the best option on freight!

• We will not ship when the temp. is below 25°

• We will not ship later than Wednesday to ensure the plants arrive before the weekend.

• We offer local delivery in our company truck to customers within a 150-mile radius of Fort Collins; charges vary by mileage.

• Pick-up orders can also be scheduled in advance between 8am and 3pm Wednesday - Friday.

CLAIMS:
Gulley Greenhouse must be notified within 72 hours upon receipt of plants if you have shipping or quality concerns. No claims will be honored unless notification is made within this time limit. Please notify your broker IMMEDIATELY with any problems. Your broker must submit a “Request for Claim” form and a digital photo within this time limit.

THANK YOU...
We sincerely thank you for choosing Gulley Greenhouse. If you do not see what you are looking for in this catalog or have any other questions, please don’t hesitate to call us. We look forward to the opportunity to work with customers like you in the business we love...plants!

RESPONSIBLY GROWN NEONICOTINOID FREE!

ALL of our young plants are grown responsibly, without using chemicals that contain neonicotinoids. In fact, our growers are employing the help of many beneficial insects in our greenhouses these days!

Join us in the cause to protect bees and our environment!

THANK YOU...
A SIZE FOR EVERY NEED

TRAY SIZES:
Since every grower is unique, we offer multiple tray sizes to give you options based on your specific needs and preference. Almost every variety on our list is grown in a 98-cell tray, with many perennials having the option of 200-cell, 72-cell, 50-cell, and 32-cell trays as well. Specialty annuals are most likely grown in larger 72-cell or 50-cell liners.

We are happy to custom grow in any size tray at your specific request with enough lead time.

WHAT TRAY SIZE IS RIGHT FOR YOU?
• Savings on Freight
  For our customers that regularly purchase 72-cell trays, the 98-cell liner is very close to the same size but contains 26 more plants per tray. This will add up to a huge savings on freight!

• Mass Production Potential
  For our customers that regularly purchase 128-cell trays, we offer a comparable 200-cell tray. This makes major economical sense for growers that are producing larger quantities of 2.5” to 4” finished containers.

Almost all groundcover varieties we list will be offered in the 200-cell size, perfect for planting into cell packs with a quick turn-around time.

• Rapid Finish Option
  Consider a 50-cell or 32-cell liner if you are looking to finish a gallon or 2-gallon pot quickly without as much growing time. Our large liners have been bulked and cooled and will finish a gallon in 4-8 weeks depending on growing conditions.

• Increased Plant Health
  Compared to a 128-cell tray, our 98-cell size has better airflow and more soil volume per cell, offering the benefits of a larger plant with a more vigorous root system.

As finished growers ourselves, we have been experimenting with different sized trays throughout the years. We think this assortment of sizes spans the many needs that you, the finished grower, encounters every season.

We appreciate any feedback you might have about our sizes!

*LUPINUS ‘Westcountry Blacksmith’
Please see page 78 for details.
*Must Have Perennials*
OUR PARTNERS IN THE INDUSTRY ARE VERY IMPORTANT TO US!

Over the years we have seen this young plant industry grow and change in amazing ways. Through those years we have forged many valuable relationships (and friendships!) that we are proud to feature. Listed here are just some of the breeding and licensing companies that we are affiliated with.

Please see the catalog pages for more information on each specific plant listed as well as additional affiliations.

Must Have Perennials

ACHILLEA 'Little Moonshine'
ACHILLEA millefolium 'Peachy Seduction'
ACHILLEA millefolium 'Strawberry Seduction'
ACHILLEA millefolium 'Wonderful Wampas'
ANEMONE x hybrida 'Pretty Lady' Series
CAMPANULA poscharskyana 'Blue Waterfall'

PROGRAM DETAILS

SIZES:
The majority of our specialty annuals are available in the 72-cell size, with selected varieties available in 96-cell, 50-cell and 32-cell liners. Not all varieties are produced year-round, in fact most are based on pre-booked speculation. Please check with us for availability and potential ship date windows.

PRICES:
Please contact your horticultural broker for prices and to place an order. Or send your order directly to us and we will recommend a broker salesperson to facilitate the sale.

We offer an Early Order Discount of 2% for orders between June 1, 2017 and October 13, 2017. Specialty annual orders are not eligible for volume discounts, but we are happy to provide a custom quote for large quantities. Please talk to your broker.

PULL & PACK SHIPPING OPTION:
Select cordyline varieties have the option to be shipped out of their trays (pull & pack) to fit more trays in a single box...see image above. Our growers will determine if the crop is well-rooted enough to be eligible for this method of shipping. Please let our sales office know if pull & pack is an option that you would like to pursue.

QUESTIONS?
Please call our main wholesale office toll-free at 1-800-642-8028 or send us an e-mail at gulleygh@gulleygreenhouse.com.

CORDYLINE

CORDYLINE ‘Red Sensation’ The standard of all cordyline programs, this showy plant has strong stems of dark purple-red leaves that become wider with age.
- Height: 36”
- Width: 24”-30”
- Light: 0-1

CORDYLINE ‘Red Star’ Burgundy red sword-like leaves offer great texture and color.
- Height: 36”
- Width: 24”-30”
- Light: 0-1

CORDYLINE ‘Renegade’ This variety stands apart from other Cordylines with it’s striking purple-black foliage which forms a tidy clumping habit with age. Kiwi Flora PP#18605.
- Height: 30”-36”
- Width: 24”-30”
- Light: 0-1

CORDYLINE ‘Torbay Dazzler’ Brightly striped leaves of creamy peach and lime green. A beautiful centerpiece or stand alone accent plant. Please order early, very limited availability.
- Height: 30”-36”
- Width: 30”-36”
- Light: 0-1

DIGIPLEXIS

DIGIPLEXIS® ‘Berry Canary’ A new hybrid cultivar that is better branched and more compact than the original Digiplexis introductions. Frosted rose pink flowers all season.
- **32**-cell size available in spring 2018 only.
- Height: 24”
- Width: 24”
- Light: 0-1

DIGIPLEXIS® ‘ILLUMINATION™ Apricot’ Elegant spikes of soft peachy-apricot flowers edged in hot pink. Non-stop flowering from spring until autumn, very eye Catching.
- **32**-cell size available in spring 2018 only.
- Height: 24”
- Width: 24”
- Light: 0-1

DIGIPLEXIS® ‘ILLUMINATION™ Flame’ One of the most attention grabbing introductions in years! Bushy plants have a profusion of dense flower spikes featuring unique rose-orange flowers. **32**-cell size available in spring 2018 only.
- Height: 24”
- Width: 24”
- Light: 0-1

DIGIPLEXIS® ‘ILLUMINATION™ Raspberry Imp.’ The sister to ILLUMINATION™ Flame, Raspberry features deep magenta-purple flowers with spotted throats.
- **32**-cell size available in spring 2018 only.
- Height: 24”
- Width: 24”
- Light: 0-1

PHORMIUM

PHORMIUM ‘Purple Mountain’ Strappy deep purple-black leaves have a blue tint on the undersides. Great for xeric landscapes or as a centerpiece in mixed combinations.
- Height: 24”-30”
- Width: 24”
- Light: 0-1

RHODANTHEMUM

RHODANTHEMUM ‘African Eyes’ Clear 1” white daisy flowers with darker centers bloom profusely on strong stems, lacy gray foliage. Needs very little attention!
- Height: 10”-12”
- Width: 12”-16”
- Light: 0-1

STACHYS

STACHYS hybrid ‘Lilac Falls’ This unique hybrid combines the toughness of Stachys with the flower power of Lamium. Purple flowers cover the plant all season long. Hardiness to be determined. Westflowers PP#.
- Height: 12”
- Width: 12”-16”
- Light: 0-1
PROGRAM DETAILS

**SIZES:**
Perennials are available in 200-cell (sold as 196), 98-cell (sold as 96), or 72-cell sizes, depending on the variety. A majority of varieties are also available in a vernalized 50 or 32-cell large liner (varieties listed on page 12).

**PRICES:**
Please contact your horticultural broker for pricing and to place an order. Or send your order directly to us and we will recommend a broker; our complete broker listing is on page 4. Additional patent fees, royalties, and tag & marketing fees may apply and will also be available from your broker. Also please see Volume and Early Order Discount information on page 2.

**NEW VARIETIES:**
We have added tons of interesting new varieties to our 2018 line-up! Look for the ‘New’ icon throughout the catalog to find these hot new 2018 additions.

**AFFILIATIONS:**
We are closely affiliated with several brands and plant breeders; please see page 6 for variety listings.

**VERNALIZATION:**
Most of our perennials are first-year blooming and do not require vernalization. If you have questions about which varieties will need to be vernalized for spring flowering, please give us a call and we can help you put together a program. All of our 50-cell and 32-cell liners are vernalized and ready to pop into a gallon for spring sales.

**QUESTIONS?**
Please call our main wholesale office toll-free at 1-800-642-8028 or send us an e-mail at gulleygh@gulleygreenhouse.com.

Camera icon denotes that an image is displayed of the selected variety.

For pricing and to place an order, please contact us or your favorite horticultural broker. See page 4 for our complete broker listing.
VERNALIZED 50’S and 32’s
Our 50-cell and 32-cell program includes a wide selection of perennials that are bulked, cooled, and are bursting with stored energy come spring! You will receive a nicely rooted pre-finished liner ready to move up into a larger pot size. This treatment dramatically reduces overall crop time in the finished container.

AVAILABILITY AND VARIETIES
All of the varieties on the following list will be grown on availability, ready to ship in January 2018. Orders will be taken on a first-come, first-serve basis.

If you see a variety within the main catalog that is not offered as a 50-cell or 32-cell (on these pages), we may be able to custom grow it for you. Please check with us for a custom quote! Order minimums and lead times will apply.

PRICES
Please contact your broker for pricing and to place an order. Or send your order directly to us and we will recommend a broker salesperson to facilitate the sale.

DISCOUNTS
• 32-cell orders can be combined with other perennial sizes towards the perennial volume discount (see page 2 for more info).
• We offer a 2% Early Order Discount for all orders placed after June 1, 2017 and before October 13, 2017.

TAGS
Some varieties require tags, please contact your broker for required tag and royalty information. For plants that do not require tags, picture tags are available to add to your order. Please let us know if you want to add tags!

SHIPPING
32-cell trays are shipped 3 trays per box. Each tray weighs 9-11 pounds, (approximately 27-33 lbs per box). 50-cell trays are shipped 4 trays per box, with a full box weight of 25 lbs per box. Box dimensions are 22”x12.5”x18” for both sizes.

These plants have been maintained in cold conditions, so they can be shipped by ground freight at customer’s risk. Other methods can be used if preferred, please let us know. Please be advised that UPS will not honor claims for any reason!

All boxing, packing and handling costs will be included in one flat fee per tray, regardless of size or how many trays are on the order. We ship by Tuesday of each week to ensure that plants arrive before the weekend. Please see page 2 for more shipping information.

MINIMUM
32-cell: 1 case per shipment (3 trays of 32).
50-cell: 1 case per shipment (4 trays of 50).

CLAIMS
Please see page 2 for claim protocol.

THE BENEFIT OF LARGER LINERS
Let us do some of the work for you! Each 50-cell and 32-cell liner is given at least 10 weeks to root (and receive a cold treatment if necessary per that variety).

Planting from larger liners will reduce your finish times in the spring. Plan on 4-6* weeks to finish a gallon, and 2-3* weeks to finish a quart. (*Finish times may vary depending on your specific size selected, growing environment and temperatures).

ACHILLEA YARROW

ACHILLEA ageratifolia 'Greek' Short, gray-green creeper with white flowers.
Zone: 3-9 Height: 4'-6' Light: ☀ Bloom Season: SU

ACHILLEA 'Little Moonshine' Same bright golden-yellow flowers as 'Moonshine', but with a compact and easy to manage habit. Day-length neutral breeding means earlier blooming. Ideal for containers and small spaces. Must Have Perennials ACH20022 PPAF.
Zone: 4-8 Height: 9'-12' Light: ☀ Bloom Season: SU/EF

ACHILLEA millefolium 'Desert Eve™ Series': Compact series of 6 strong colors features sturdy plants that are very early to bloom. Syngenta Flowers.
Zone: 4-8 Height: 10'-12' Light: ☀ Bloom Season: LSP/EF

- 'Desert Eve™ Cream' Soft ivory white. • 96 (6 weeks)
- 'Desert Eve™ Deep Rose' Dark rose pink. • 96 (7 weeks)
- 'Desert Eve™ Light Yellow' Lemon yellow. • 96 (7 weeks)
- 'Desert Eve™ Red' Deep ruby red. • 96 (7 weeks)
- 'Desert Eve™ Terracotta' Salmon/peach. • 96 (7 weeks)
- 'Desert Eve™ Yellow' Deep true yellow. • 96 (7 weeks)

ACHILLEA millefolium 'Paprika' Orange-red blooms have golden center. Very drought tolerant.
Zone: 4-9 Height: 24' Light: ☀ Bloom Season: SU/EF

ACHILLEA millefolium 'Peachy Seduction' Clusters of glowing peach-pink flowers on sturdy, disease resistant foliage. Must Have Perennials PP922262.
Zone: 4-8 Height: 20'-24' Light: ☀ Bloom Season: SU/EF

ACHILLEA millefolium 'Pink Grapefruit' Large, lavender-pink flowers on a tidy compact vase-shaped habit. Must Have Perennials PP20741.
Zone: 4-8 Height: 20'-24' Light: ☀ Bloom Season: SU/EF

ACHILLEA millefolium 'Song Siren'™ Series: Non-fading large blooms on dependable, compact plants. Abundant flowers make a good season extender for retail sales. Darwin Perennials.
Zone: 4-8 Height: 14'-16' Light: ☀ Bloom Season: ESU/EF

- 'Song Siren™ Angie' Dark carmine-rose flowers. • 96 (7 weeks)
- 'Song Siren™ Laura' Deep red flowers with white eyes. • 96 (7 weeks)
- 'Song Siren™ Layla' Abundant violet flowers. • 96 (7 weeks)
- 'Song Siren™ Little Susie' Non-fading rose pink. • 96 (7 weeks)
- 'Song Siren™ Pretty Woman' Deep rose-red flowers, sturdy stems. • 96 (7 weeks)

ACHILLEA millefolium 'Strawberry Seduction' Bright red flowers with golden centers. Vigorous, but not too tall. Must Have Perennials PP18401.
Zone: 4-8 Height: 18'-20' Light: ☀ Bloom Season: SU/EF

ACHILLEA millefolium 'Wonderful Wampee' Blooms start as dark pink and slowly fade to a light blush color. Must Have Perennials PP18780.
Zone: 4-8 Height: 14'-16' Light: ☀ Bloom Season: SU/EF

ACHILLEA tomentosa 'Goldie' Long-flowering golden yellow flowers above ground hugging foliage.
Zone: 4-8 Height: 6'-8' Light: ☀ Bloom Season: SU

ACHILLEA x 'Moonshine' Soft, feathery, gray-green foliage is complimented by buttery yellow panicle flowers. A classic!
Zone: 4-8 Height: 19'-24' Light: ☀ Bloom Season: SU

PROGRAM DETAILS

SIZE:
Perennial ornamental grasses are available in the 72-cell size, with selected varieties available in 32-cell large liners. The majority of Annual grasses are available in the 98-cell size (sold as 96). Not all varieties are produced year-round, so please check with us for availability.

PRICE:
Please contact your horticultural broker for prices and to place an order. Or send your order directly to us and we will recommend a broker salesperson to facilitate the sale.

Grass orders can be combined with herb and perennial orders to achieve the maximum perennial volume discount. We also offer an Early Order Discount of 2% for orders placed after June 1, 2017 and before October 13, 2017... talk to your broker!

QUESTIONS?
Please call our main wholesale office toll-free at 1-800-642-8028 or send us an e-mail at gulleygh@gulleygreenhouse.com.
ANEMANTHELE

ANEMANTHELE  ‘Buffalo’s Gold™’  Color changes from green in summer to gold in cooler months.  Low maintenance.
Zone: 6-8  Height: 24”  Light: ☀

CALAMAGROSTIS

CALAMAGROSTIS  x acutiflora  ‘Avalanche’  Feather Reed Grass  An improvement on ‘Overdam’ with much better variegation and striking plumes.
Zone: 4-9  Height: 36”-48”  Light: ☀

CALAMAGROSTIS  x acutiflora  ‘Karl Foerster’  Feather Reed Grass  Deep green foliage forms upright clumps topped by very vertical plumes.
2001 Perennial Plant of the Year.
Zone: 4-9  Height: 36”-48”  Light: ☀

**Basil**  
*Ocimum basilicum*

Basil is great for flavoring tomato dishes, soups, sauces, meats, herb butters, and vinegars. Use as a garden border plant.

- **Basil 'Aristotle'** Compact, topiary habit is great for pots. Easy to pick, classic basil aroma and taste.  
  Zone: 10  
  Height: 8”-10”  
  Light: □  
  96 (4 weeks)

- **Basil 'Bush'** Similar to spicy globe; tight growth habit.  
  Zone: 10  
  Height: 24”  
  Light: □  
  96 (4 weeks)

- **Basil 'Genovese'** Intensely scented strain of Sweet Basil. Popular with gourmet markets.  
  Zone: 10  
  Height: 24”  
  Light: □  
  96 (4 weeks)

- **Basil 'Genovese Red Freddy'** Marvelous dark red leaved version of Genovese. Smooth broad leaves with the same wonderful flavor, a culinary eye catcher!  
  Zone: 10  
  Height: 24”  
  Light: □  
  96 (4 weeks)

- **Basil 'Greek Columnar'** Upright/columnar growth habit makes this one ideal for small gardens.  
  Zone: 10  
  Height: 18”-36”  
  Light: □  
  96 (5 weeks)

- **Basil 'Pesto Perpetuo'** Beautiful variegated green/white foliage. Great basil taste; produces all season. Sunny Border Nursery PP#16260.  
  Zone: 10  
  Height: 18”-24”  
  Light: □  
  96 (6 weeks)

- **Basil 'Purple Ruffle'** Deep purple leaves with ruffled edges. Great accent for fresh cuisine.  
  Zone: 10  
  Height: 24”  
  Light: □  
  96 (4 weeks)

- **Basil 'Red Rubin'** Improved, large, purple-leaf variety, sweet scented foliage.  
  Zone: 10  
  Height: 18”  
  Light: □  
  96 (4 weeks)

- **Basil 'Siam Queen'** Thai style basil, long harvest period.  
  Zone: 10  
  Height: 18”  
  Light: □  
  96 (4 weeks)

- **Basil 'Spicy Globe'** Compact growth habit, spicy basil flavor. Great to use in patio pots or small gardens.  
  Zone: 10  
  Height: 24”  
  Light: □  
  96 (4 weeks)

- **Basil 'Sweet'** White flowers, bright green leaves. Great basil to use for flavoring pesto.  
  Zone: 10  
  Height: 18”-24”  
  Light: □  
  96 (4 weeks)

**Catnip**  
*Nepeta cataria*

Attracts cats, use dried leaves as stuffing for cat toy. Sprinkle crumbled leaves to deter ants.

- **Catnip** Lemony-mint scented leaves with white/lavender flowers mid-summer.  
  Zone: 4-7  
  Height: 36”  
  Light: □  
  196 (4 weeks)  
  96 (5 weeks)

**Chamomile**  
*Matricaria recutita*

- **Chamomile 'German'** Erect habit, small white daisy flowers.  
  Zone: 7-10  
  Height: 24”  
  Light: □  
  96 (6 weeks)

- **Chamomile 'Roman'** White, daisy flower on 10” stalk. Feathery groundcover.  
  Zone: 4-8  
  Height: 4”  
  Light: □  
  96 (6 weeks)
**CHIVES**  *Allium sp.*
Add mild onion or garlic flavor to soups, salads, sauces, butters, vinegars, meat, and cheese dishes. Great as a garnish.

- **CHIVES ‘Garlic’** (Allium tuberosum) Delicious mild garlic flavored. Lime-green/white flowers in summer.
  - Zone: 3
  - Height: 12”
  - Light: ☀
  - 196 (8 weeks)
  - 96 (12 weeks)

- **CHIVES ‘Gigantic’** (Allium schoenoprasum) Broad blades are far more decorative than regular chives.
  - Zone: 3
  - Height: 12”-14”
  - Light: ☀
  - 196 (8 weeks)
  - 96 (12 weeks)

- **CHIVES ‘Regular’** (Allium schoenoprasum) Leaves add fresh and mild onion flavoring to dishes. Rose pink flowers.
  - Zone: 3
  - Height: 12”
  - Light: ☀
  - 196 (8 weeks)
  - 96 (12 weeks)

**CORIANDER**  *Coriandrum sativum*
Also known as coriander or Chinese Parsley, the fern-like leaves are used for flavoring Mexican and Oriental dishes. Especially tasty in salsas and soups.

- **CORIANDER (Cilantro) ‘Regular’** Wide, bright green foliage that is highly fragrant and slow to bolt.
  - Zone: 7-9
  - Height: 18”-20”
  - Light: ☀
  - 96 (4 weeks)

**DIGITALIS**  *Digitalis purpurea*
Please see additional ornamental varieties on page 29.

- **DIGITALIS purpurea ‘Foxy’** Biennial. Mixed colors of tubular flowers on spikes. Extract from leaves is used in powerful cardiac medicines. Leaves are poisonous if ingested.
  - Zone: 5-9
  - Height: 24”-36”
  - Light: ☀
  - 96 (6 weeks)

**DILL**  *Anethum graveolens*
Leaves and seeds used for pickling, in vinegars, soups, and salads.

- **DILL ‘Fern Leaf’** Dark, finely divided foliage on basal-branching plants; excellent flavor. All-America-Selections Winner 1992.
  - Zone: 7-9
  - Height: 18”
  - Light: ☀
  - 196 (4 weeks)
  - 96 (5 weeks)

- **DILL ‘Regular’** Feathery foliage with yellowish/green flowers. Use dried and fresh leaves for savory dishes.
  - Zone: 7-9
  - Height: 36”
  - Light: ☀
  - 96 (5 weeks)

**FENNEL**  *Foeniculum vulgare*
Fennel bulbs and seeds are used in vegetable combinations, breads, meat & cheese dishes.

- **FENNEL ‘Bronze’** Delicately cut foliage, deep smoky bronze color. Vigorous grower, tender perennial.
  - Zone: 5-9
  - Height: 48”
  - Light: ☀
  - 96 (6 weeks)

**HYSSOP**  *Hyssopus officinalis*
Leaves have bitter, minty flavor, and are used in teas, perfumes, and liqueurs.

- **HYSSOP** Semi-evergreen with deep blue-violet flowers June-August, good for cutting.
  - Zone: 4-8
  - Height: 24”
  - Light: ☀
  - 96 (6 weeks)

**LAVANDIN**  *Lavandula hybrid*
A hybrid between English and spike lavender, Lavandin produces an essential oil used to heal muscle aches and flu.

- **LAVANDIN ‘Provence’** Taller, rot-resistant variety. Lavender-blue flowers bloom throughout summer.
  - Zone: 5
  - Height: 30”
  - Light: ☀
  - 96 (7 weeks)
**LAVENDER**  *Lavandula sp.*

Aromatic foliage used for aromatherapy, in potpourris, and sachets. Essential oil used to heal aches, cuts, burns, and stings.

- **LAVENDER (L. angustifolia) ‘Blue Cushion’** Free flowering dwarf habit.
  - Zone: 5-7
  - Height: 16"-18"
  - Light: ☀

- **LAVENDER (L. angustifolia) ‘Ellagance’ Series:** First year flowering with large flower spikes on well-branched, bushy plants.
  - Zone: 5-7
  - Height: 12"-14"
  - Light: ☀

  - **‘Ellagance Ice’** Silver white flowers on spikes.
    - Zone: 5-7
    - Height: 12"-14"
    - Light: ☀

  - **‘Ellagance Pink’** Rose pink flowers on spikes.
    - Zone: 5-7
    - Height: 12"-14"
    - Light: ☀

  - **‘Ellagance Purple’** Dense, deep purple flower spikes.
    - Zone: 5-7
    - Height: 12"-14"
    - Light: ☀

  - **‘Ellagance Sky’** Light, lavender-blue flowers on spikes.
    - Zone: 5-7
    - Height: 12"-14"
    - Light: ☀

- **LAVENDER (L. angustifolia) ‘Hidcote Blue’** Similar to ‘Munstead’ but with dark, violet-blue flowers. Extremely fragrant.
  - Zone: 5
  - Height: 18"
  - Light: ☀

  - Zone: 4-9
  - Height: 12"-18"
  - Light: ☀

- **LAVENDER (L. angustifolia) ‘PLATINUM BLONDE™’** Young growth is beautifully variegated with creamy yellow margins; soft blue flowers.
  - Cultivars, ‘Momparker’ PP#23834.
  - Zone: 5-11
  - Height: 18"-24"
  - Light: ☀

- **LAVENDER (L. angustifolia) ‘SuperBlue’** The largest blooms of any angustifolia variety on the market! Dense flower spikes for more color impact. Darwin Perennials PP#24929.
  - Zone: 5-8
  - Height: 10"-12" Light: ☁

  - Zone: 5-10
  - Height: 5"-10" Light: ☁

- **LAVENDER (L. dentata) French** Delightful lavender fragrance, good as indoor window plant. Tender perennial.
  - Zone: 6-9
  - Height: 12"-36" Light: ☀

- **LAVENDER (L. stoechas) ‘Anouk’** Compact, mounding plants with fragrant gray-green leaves. Large deep purple winged flowers all season. Darwin Perennials PP#16685.
  - Zone: 6-9
  - Height: 10"-14" Light: ☀

- **LAVENDER (L. x intermedia) PHENOMENAL™** This variety boasts silver foliage and a cloud of blue flowers all summer long. Good winter interest. B & S Plant, ‘Niko’ PP#24193.
  - Zone: 5-11
  - Height: 24"-32" Light: ☀

**LEEKS**  *Allium porum*

- **LEEKS** Purple globular flower in second season; use stalks and bulb for mild onion flavor.
  - Zone: 4-9
  - Height: 24"-36" Light: ☀

**LEMON BALM**  *Melissa officinalis*

Lemon scented leaves flavor savory dishes & drinks.

- **LEMON BALM** Attractive, light green leaves. Plant serves as fragrant background to the perennial border.
  - Zone: 4-9
  - Height: 36" Light: ☀
LEMON GRASS  
**Cymbopogon citratus**

**LEMON GRASS (West Indian)**  
Blades are packed with strong lemon-citrus flavor, used in Asian cooking. Clumping.  
Zone: 9-11  
Height: 24”-48”  
Light: ☀️

ZONE 8

LEMON VERBENA  
**Lippia citridora**

**LEMON VERBENA**  
Semi-evergreen leaves have a strong lemon scent. Grows best in a container with bright light.  
Zone: 8  
Height: 24”  
Light: ☀️

MINT 'Apple'  
(M. rotundifolia)  
Large, woolly green leaves, sweet apple mint scent. White flowers.  
Zone: 4  
Height: 12”-24”  
Light: ☀️

MINT 'Chocolate'  
(M. spp.)  
Bronzy-green leaves have a mint-chocolate fragrance. A hit with children!  
Zone: 4  
Height: 12”-24”  
Light: ☀️

MINT 'Corsican’ (M. requienii)  
Mini Mint  
Tiny green leaves on low-growing matted groundcover. Excellent addition to fairy gardens and along pathways.  
Zone: 6  
Height: 1”-2”  
Light: ☀️

MARJORAM  
**Origanum majorana**

**MARJORAM ‘Sweet’ (Green)**  
Leaves with a spicy scent flavor meats, poultry, fish, stuffing and sauces.  
Zone: 7-10  
Height: 12”  
Light: ☀️

OREGANO  
**Origanum sp.**

**OREGANO ‘Common’ (Origanum vulgare)**  
Creeping, dark green foliage with pink flowers July-Sept.  
Zone: 4  
Height: 12”  
Light: ☀️

OREGANO ‘Golden’ (Origanum vulgare aureum)  
White flowers with creeping yellow/green foliage. Great accent.  
Zone: 4  
Height: 12”  
Light: ☀️

For pricing and to place an order, please contact us or your favorite horticultural broker. See page 4 for our complete broker listing.
OREGANO ORIGANUM SP., continued

OREGANO ‘Greek’ (Origanum vulgare ‘Greek’) Large, dark green, pungent leaves. More upright in growth habit.
Zone: 4 Height: 16”-24” Light: ☀ • 196 (4 weeks) • 96 (6 weeks)

OREGANO ‘Hot & Spicy’ (Origanum vulgare) One of the best tasting oreganos! The hot and spicy flavor makes this a great addition to any herb garden.
Zone: 4 Height: 12”-18” Light: ☀ • 160 (4 weeks) • 96 (6 weeks)

OREGANO ‘Italian’ (Origanum onites) Small, light green leaves. Has a sweeter flavor than other oreganos.
Zone: 4 Height: 24” Light: ☀ • 196 (4 weeks) • 96 (6 weeks)

OREGANO ‘Mexican’ (Lippia graveolens) Most commonly used herb for commercial dried oregano.
Zone: 7 Height: 12”-24” Light: ☀ • 96 (7 weeks)

PARSLEY PETROSELINUM SP.

PARSLEY ‘Curled’ (P. crispum) Curled, dark green leaves have celery flavor. Use leave ms.
Zone: 5 Height: 12” Light: ☀ • 96 (6 weeks)

PARSLEY ‘Italian/Flat’ (P. neapolitanum) Flat leaves with stronger flavor, superior in cooked dishes.
Zone: 5 Height: 18” Light: ☀ • 96 (6 weeks)

ROSEMARY ROSEMARINUS SP.

Evergreen plant with pale blue-lavender flowers; tolerates poor soil. Sharp pine-scented leaves flavor meats, vegetables, poultry, stuffing, bread, tea, vinegar, and butters. Flowers and leaves used in potpourri and soaps.

ROSEMARY ‘Arp’ (R. officinalis) Tender perennial, but more hardy than other officinalis varieties.
Zone: 6-10 Height: 12”-36” Light: ☀ • 96 (8 weeks)

ROSEMARY ‘Barbecue’ (R. officinalis) Upright grower with stiff stems that make it ideal for skewers.
Zone: 8-10 Height: 36”-48” Light: ☀ • 96 (8 weeks)

ROSEMARY ‘Regular’ (R. officinalis) Used as a fragrant hedging plant; light blue flowers.
Zone: 7-10 Height: 24” Light: ☀ • 96 (8 weeks)

ROSEMARY ‘Tuscan Blue’ (R. officinalis) Upright habit can be trained as a hedge. Bright lavender-blue flowers.
Zone: 8-10 Height: 36” Light: ☀ • 96 (8 weeks)

ROSEMARY ‘Weeping’ (R. officinalis ‘Prostrata’) Trailing dark green foliage with pale blue-lavender flowers.
Zone: 8-10 Height: 6” Light: ☀ • 96 (8 weeks)

RUE RUTA GRAVEOLENS

RUE Shrubbery evergreen with blue-green, fern-like foliage. Bitter leaves are used to make disinfectants. Yellow flowers bloom June through August. Don’t plant near other vegetables as it makes the soil bitter too!
Zone: 4-10 Height: 36” Light: ☀ • 96 (7 weeks)
2017-18 Variety Selection

**SAGE** **SALVIA SP.**
Spicy scented leaves that gourmets love! Peppery spice flavors poultry, pork, sausage, tea, and cheese. Please see ornamental Salvia varieties in the perennial section on page 56.

- **SAGE ‘Berggarten’** (*S. officinalis*) Large, round, gray-green leaves. Good as landscape plant also.
  - Zone: 6
  - Height: 24”
  - Light: ☀️
  - 96 (6 weeks)

- **SAGE ‘Garden’** (*S. officinalis*) Violet flowers in June; woolly gray leaves look good in landscape.
  - Zone: 6
  - Height: 24”
  - Light: ☀️
  - 96 (6 weeks)

- **SAGE ‘Golden Icterina’** (*S. officinalis*) Golden variegated leaves; ornamental AND edible!
  - Zone: 6
  - Height: 24”
  - Light: ☀️
  - 96 (6 weeks)

- **SAGE ‘Pineapple’** (*S. rutinland*) Scarlet flowers with pineapple-scented leaves. Use in salads or butters.
  - Zone: 8
  - Height: 36”
  - Light: ☀️
  - 96 (4 weeks)

- **SAGE ‘Purple’** (*S. officinalis purpurea*) Same wonderful sage flavor as straight officinalis, but with deep blueish-purple foliage. Stunning in the landscape.
  - Zone: 6
  - Height: 18”
  - Light: ☀️
  - 96 (6 weeks)

- **SAGE ‘Tricolor’** (*S. officinalis*) Showy variegated maroon, green, & white foliage. Flavor is similar to garden sage.
  - Zone: 6
  - Height: 24”
  - Light: ☀️
  - 96 (6 weeks)

**STEVIA** **REBAUDIANA**
A tropical plant with bright green leaves and small clusters of white flowers. Sometimes called the “sugar herb”, leaves are much sweeter than table sugar. A natural sweetener with no calories!

- **STEVIA**
  - Zone: 10-11
  - Height: 5”-8”
  - Light: ☀️
  - 196 (4 weeks)
  - 96 (5 weeks)

**TARRAGON** **ARTIMISA DRANCULUS**
Commonly used in French cooking, leaves flavor steaks, seafood, poultry, sauces, marinades, and vinegars.

  - Zone: 4-9
  - Height: 24”
  - Light: ☀️
  - 96 (7 weeks)

**THYME** **THYMUS SP.**
Aromatic leaves are used in potpourris, herbal remedies, and cuisine depending on the variety. Please see the perennial section on page 63 for additional Thyme varieties.

- **THYME, Creeping ‘Mother of Thyme’** (*T. serpyllum*) Purple flowers on dark green, aromatic leaves. Can handle light foot traffic. Use in potpourris and sachets for aromatherapy.
  - Zone: 5-9
  - Height: 2’-6”
  - Light: ☀️
  - 196 (4 weeks)
  - 96 (6 weeks)

- **THYME, Upright ‘English’** (*T. vulgaris*) Tiny, lavender flowers June-July. Fragrant, gray-green leaves; culinary variety.
  - Zone: 5-9
  - Height: 8”-10”
  - Light: ☀️
  - 196 (5 weeks)
  - 96 (6 weeks)

- **THYME, Upright ‘French’** (*T. vulgaris*) Similar to English but with smaller leaves and a sweeter flavor. A “must-have” for French cooking.
  - Zone: 5-9
  - Height: 10’-12”
  - Light: ☀️
  - 196 (5 weeks)
  - 96 (6 weeks)

**SAVORY** **SATUREJA SP.**
Spicy, peppery leaves flavor meat, fish, poultry, potatoes, and vegetables.

- **SAVORY ‘Summer’** (*S. hortensis*) Lilac pink flowers with bushy growth habit. Tiny leaves have peppery flavor and scent.
  - Zone: 9-11
  - Height: 18”
  - Light: ☀️
  - 96 (6 weeks)

  - Zone: 3-8
  - Height: 12”
  - Light: ☀️
  - 96 (8 weeks)

For pricing and to place an order, please contact us or your favorite horticultural broker. See page 4 for our complete broker listing.
WESTCOUNTRY LUPINES

GENERAL INFORMATION
- Production: Excellent for larger 2 to 3 gallon containers; large flower spikes closely packed with individual bells, strong and unique colors. Although they are a hardy perennial to zone 5, this series will shine as a pot crop with a huge impact on display at retail. The massive display of flowers will also support a much higher price point than normal lupine varieties.
- Hardiness: Tested to USDA Zone 5
- Foliage: Soft green to grayish-red, the finger like leaves make whirls at the top of the leaf stems.
- Flower Color: Seven color assortment of solids and bi-colors; see images of all varieties on page 80.
- Flowering Time: Late April to Early June.
- Flowering Height: 24-36” spikes of single flowers.
- Use for: Cottage/landscape garden effect in borders, premium patio/container centerpiece.
- Landscape Culture: Sun, partial shade; moderately fertile light soils that are slightly acidic (Lupines dislike limey soils).
- Protected: Must Have Perennials EU and USA; the breeder asserts ownership of all rights in this plant.
- Availability: 72cell liners will be available starting in wk34, 2017. 32cell liners available starting in wk2, 2018. Please contact your favorite broker for pricing information.

GROWER INFORMATION

PLANTING AND CROP TIMING
- With an overall width of 24” to 30”, this series should be treated as a large and premium crop due to their size and price point.
- We recommend that growers plant (1) 72cell liner in a 2-gallon pot in late summer to early fall. Westcountry lupine create the biggest display when bulked through the fall and winter months and allowed to bloom with the natural spring season of the location they’re grown at.
- The Westcountry lupine can also be planted into finished containers from cooled/vernalized liners in the spring, but the key is bulking. The larger the root system and the more crowns above the soil, the more flower spikes that will bloom in the spring.

TEMPERATURE AND LIGHT
- When actively growing or bulking, maintain night temperatures of 45°F or higher. When the plants are well-rooted and the foliage reaches the edge of the finished container, cool the temperatures down to 25-30°F nights. Lupine love cold!! But it is also best to keep the crop above 20°F where plants will start to go completely dormant.
- Lupine bloom with a combination of light and temperature. It is possible to force them into flower with artificial light, but make sure the plants are large enough before adding the lighting. This series does not require vernalization to bloom, but the more time given to bulk at cool temperatures, the more impressive the flower display.
- The Westcountry series will do best grown in full sun to part-shade conditions.

PINCHING AND PGR’S
- Do not pinch the new growth (crown) at the center of the plant. It is best to control plant growth with temperature. Cool them down to slow them down, warm them up to speed them up! Lupines respond very quickly to increases or decreases in temperature.
- A uniconazole PGR spray or paclobutrazol PGR drench can also be applied to help maintain desired height, especially as temperatures increase in spring.

MEDIA, IRRIGATION AND FERTILIZATION
- Soil media in the finished pot needs to be porous, with excellent drainage. Maintain a pH on the acidic side, but not lower than 5.5.
- Liquid feed at 100ppm nitrogen during the bulking stage, but make sure the fertilizer used is low in phosphorus.
- Plants can be grown evenly moist but not wet. Be very careful about watering if the plants are kept on the colder side; though the plants will require some supplemental water, avoid over-watering as crown rot is possible.

PESTS AND DISEASES
- After potting into the final container, apply a preventative fungicide drench.
- Other diseases that could be an issue such as Anthracnose and Powdery Mildew can easily be controlled with a fungicide spray.
- Clean up any dead leaves to prevent rot and disease issues.
- Insects that affect lupines include Aphids and Leaf Miner. Scouting for any issues along with a preventative drench and spray program should help prevent most pest infestations and diseases.
UNIFORMITY AND VIGOR

- Because they are from tissue culture, the Westcountry Lupine series is extremely stable, uniform and vigorous.
- Growers are recommended to plant one 72cell liner directly into a finished container, 2 gallon or larger.
- Under the right conditions, plants will fill out the finished container within 8 - 10 weeks.
- It is important to keep the dense crowns clean from debris during the cooling and bulking period.
- Varieties bloom very uniformly across each color, sending up one large bloom first. Secondary blooms will begin to form shortly after which gives these plants a very long shipping window.
WESTCOUNTRY LUPINES

AVAILABILITY
• 7 colors are available for the 2017-18 season, pictured below.
• Please contact your favorite broker for pricing and shipping information.
• 72 cell liners will be available starting in August, 2017. 32 cell liners available starting in January, 2018.

Westcountry ‘Blacksmith’

72 cell Liner production at Gulley Greenhouse

Westcountry ‘Desert Sun’

Westcountry ‘Gladiator’

Westcountry ‘Manhattan Lights’
